AND COMPUTING**

INDIANA UNIVERSITY

Bloomington

What Is EventPal?

- ▶ A website that will help people away from their family or friends, to connect with new people around with similar interests.
- ▶ One can find people to join them for studies or even attend an event happening in their locality, look at all the upcoming events happening during the week/day and plan their schedule accordingly.
- ▶ Imaginary Client – Indiana University(IU)

Why EventPal?

- ▶ Saves Time
- ▶ Makes searching matching events easier.
- ▶ Indiana University currently doesn't have such kind of website or web application which can help people to find other interested people for a particular activity.
- ▶ Target Audience: The students at IU and the local residents.

Technologies and Functionalities

- ▶ HTML5
- ▶ CSS3
- ▶ Javascript
